About Us

Introducing Green Interio Fusion

In this age and time, spectacular views and open interiors are trending. Incorporating glass walls in your plans makes a sea of difference to your designs. Glass adds that subtle touch of charm to today's popular minimalist designs. That's not all, glass is elegant, weather resistant and energy efficient.

It is here that Green Interio Fusion comes into play. We are a service provider company that specializes in making your homes trendy. Established in 2016, Green Interio Fusion is a sister concern of Varna Group. We bring you superior quality materials and a world-class service with the focus on improving your experience.

Green Interio Fusion offers end-to-end solutions in glass and aluminum facade designs so that the local designers, architects, engineers, and developers can give full rein to their imaginations. We aim to provide quality solutions in both exterior and interior designs. And what's more, we ensure that it complies with the green protocols. Each and every aspect of the work is monitored, analyzed and evaluated for optimum performance.

The Team

Our team is made up of highly professional architects, interior designers, and laborers who have years of experience. Our designs are trendy and contemporary and we bring global standards when we translate these designs into happy working spaces or homes for you. We believe in the dictum that fun is work and we innovate every day to make the experience better for you.

Our Vision

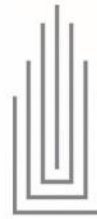

Facades define your buildings now and we aim to bring you the best from across the globe to Kerala. We stress on bringing home the most up-to-date technologies and superior quality materials to the state. And needless to say, we aim to meet global standards with every single product we deliver.

Our Mission

Our work revolves around three principles. Quality, Innovation, and excellence in everything we do have been the cornerstone of our success. We give emphasis on these values and principles for our daily success.

PRODUCT DETAILS

Spider Works

Spider glazing is made from the finest quality of steel and glass. It is ideal to use in office, multiplexes, mall and shopping complexes. We offer zeal stainless steel spider fittings, which are manufactured as per the client's specification and expert instructions. These products are successfully meeting international quality standards. The high quality spider glazing is made under the supervision of proficient professionals to ensure complete satisfaction of customers.

ACP (Aluminium Composite Panel)

Aluminium Composite Panel Cladding (ACP) is a widely-used term, describing flat panels that consist of thermoplastic core bonded between two aluminium sheets. ACPs are frequently used for external cladding of buildings (building facades). The main advantage of ACP is that, it is very rigid and strong, despite of its light weight. Due to the ability of painting the aluminium in any colour, ACPs are produced in a wide range of metallic and non-metallic colours as well as patterns that imitate other materials, such as wood or marble. Applications of ACPs are not limited to buildings external cladding;

Curtain Wall & Structural Glazing

Structural Glazing is a specialized curtain walling system. It allows perfect uniform large glazed spaces that are not interrupted by traditional frames or any other supporting or fitting system projecting out of the pane of the glass.

Canopy & Pergola

Pergola is part of Ultra frames breathtaking new outdoor and indoor living range. It can be used to create a stunning, contemporary patio area, allowing you to enjoy the outdoor whilst protecting you from the elements.

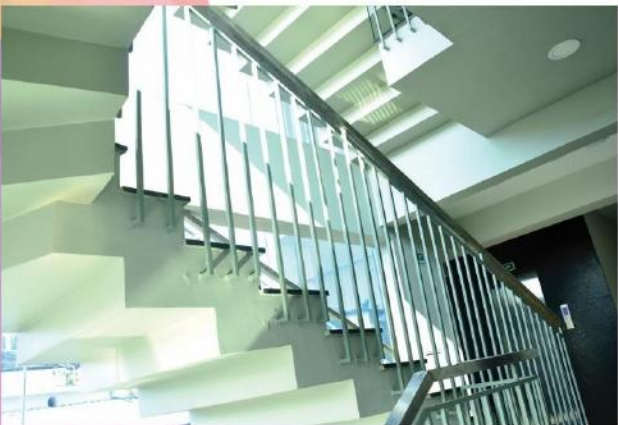

Automatic Door & Glass Partition

Each building and business has a unique look as well as unique needs which require a helping and trusting hand. Facade solution will help you pick the correct glass door hardware to meet your specifications. We'll make sure your glass storefront works perfectly and looks great too.

Handrails

The ultimate in railing systems: ingenious design, impeccable quality and uncompromising safety. Choose from a wide variety of designs and materials to create precisely the combination you are looking for. Ease of installation is built into each component! Let Facade solutions bring your vision to life with modular systems that set a new standard in railings and glass balustrades

Shower Partitions

Our Company understands the importance of highly skilled glass services. Expert shower enclosure installation and design can make all the difference in adding value and style to your home

Aluminium Doors & Windows

Quality windows add value, protection, and energy efficiency to your buildings. With a wide range of styles and materials, Facada solutions provides finest window installations.

Our custom glass installation team designs and installs windows precisely according to your preferences and needs. We are dedicated to providing our clients with the highest quality, most energy efficient home windows available; at a fair price.

Lacquered Glass & Mirror Paneling

Coloured glass wall panelling can add warm or fresh tones to interior decor, with all-over brilliance of glass. A well-placed mirror can open up a room, alter a view, or reflect a little personality. Small, large, mirrored walls, mirrored tables, shelving... the ideas are truly endless. We do residential and commercial mirror work.

High Pressure Laminate Cladding

High pressure laminate cladding (HPL) Kronoart represents a new generation of hi-definition and durable architectural facades, manufactured from high pressure laminates (HPL). HPL boards, with reference to EN 438-4, consist of multiple core layers and a decorative resin-impregnated paper. HPL is a perfect material for surfaces that require enhanced durability and impact resistance. The product is ideal for facade cladding, balcony infills, soffits, solar shading and may other different applications.

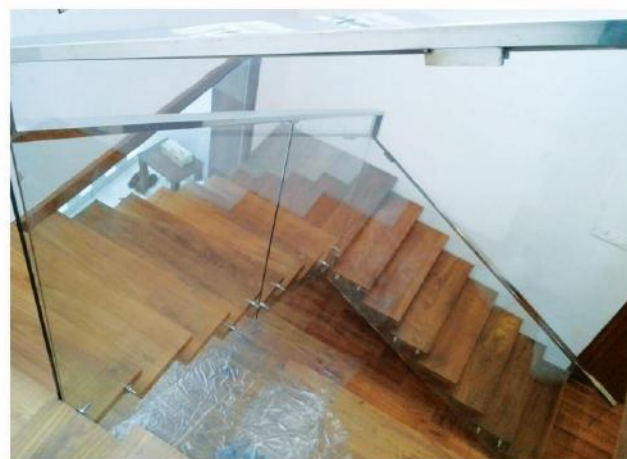

Skylight & Domes

Our proficiency depicts the acceptance of our service in this domain, we provide an optimum range of glass skylight domes to our clients so that they can achieve satisfaction. Through modern technology and qualified professionals our service keeps its quality

Glass Staircase

Building glass stairs and staircase with glass parts is a big challenge, using special architectural glass which is chemically treated, tempered and laminated it is possible to get the required strength to hold the weight of itself and the people walking on it. Straight and curved glass stair and railing can be used for private and commercial projects. Therefore the stair can span over several floors and reach a width of up to 3 meters. Due to the intensive work with engineers and experienced glass manufacture we are able to handle all demands like code requirements and statically requirements. We are always researching with architectural glass so that we can provide our customers fresh, individual and innovative glass staircase designs

Aluminium Louvers

We provide Aluminum louver works an effective and efficient manner. Our professional and dedicated work force never left the customer satisfaction behind.

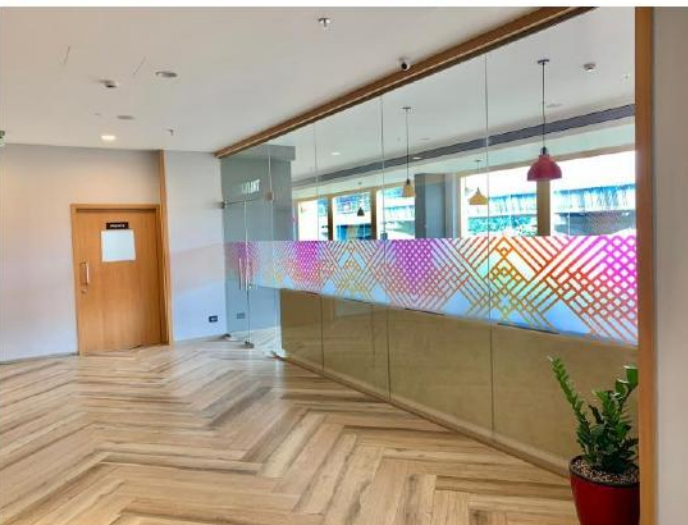

Perforated Design sheet

Perforated design sheet works is a service provided by our company in our area of service, as our any other work we are extremely honest to the customer in ensuring high quality and genuine product.
